

# #NEW11 | Natural European Wines

Nov 14th – nov 15th 2011 | Zürich World Trade Center

Natural European Wines is the start of a project by the Italian VinNatur Association, to promote knowledge about and enjoyment of natural wines, produced by non-invasive techniques without the use of chemicals.

The event aims to bring together a group of european natural wine producers, and directly addresses the most influential journalists and bloggers in the fields of oenology and eco-sustainability.

For this reason, VinNatur are inviting you to participate to a wine tasting session on Nov 14th, 3.00 pm - 7.00 pm and on Nov 15th, 9.30 am - 6.00 pm.

More than 300 european natural wines from 95 participating producers. The session will be headed by Ms. Isabelle Legeron, Master of Wine. Entrance fee of 20€ or 25 CFH.

technical partner: 

“I personally believe natural wines are the sole wines able to express terroir and connect us to the land through their authenticity, vibrancy and emotion. They are sustainable, beautiful and the only way forward. These are the wines of tomorrow today”

[Isabelle Legeron, master of wine]
